

Statement of Intent for Geography at Hogarth Primary School

Subject Leader: Catt Kemp

Intent

Here at Hogarth Primary School, we aim to inspire pupils to become curious and explorative thinkers with a diverse knowledge of the world; in other words, to think like a geographer. We want pupils to develop the confidence to question and observe places, measure and record necessary data in various ways, and analyse and present their findings.

Implementation

Through robust planning, we aim to build an awareness of how Geography shapes our lives at multiple scales and over time. We hope to encourage pupils to become resourceful, active citizens who will have the skills to contribute to and improve the world around them.

Our Geography scheme encourages -

- A strong focus on developing both geographical skills and knowledge.
- Critical thinking, with the ability to ask perceptive questions and explain and analyse evidence.
- The development of fieldwork skills across each year group.
- A deep interest and knowledge of pupils' locality and how it differs from other areas of the world.
- A growing understanding of geographical concepts, terms and vocabulary.

Impact

Here at Hogarth Primary School, our Geography scheme of work enables pupils to meet the end of key stage attainment targets in the National curriculum. Our aims also align with those in the National curriculum.

For EYFS, the activities allow pupils to work towards the 'Understanding the world' Development matters statements and Early learning goals, while also covering foundational knowledge that will support them in their further geography learning in Key stage one.
