

Computing Long Term Plan

Year Group: 1	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Reception						
Year 1	<p>Computing Systems and Networks</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Programming 1 – Algorithms Unplugged</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Skill Showcase – Rocket to the Moon</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Creating Media – Digital Imagery</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Data Handling Introduction to Data</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Internet Safety</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>
Year 2	<p>Computing Systems and Network 1 – What is a computer?</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Programming 1 – Algorithms and Debugging</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Computing Systems and Network 2 – Word Processing</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Programming 2 – Scratch Jr</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Creating Media – Stop Motion</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Data Handling – International Space Station</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>

Computing Long Term Plan

Year 3	<p>Computer Systems and Networks 1 – Networks and the Internet</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Computer Systems and Networks 2 – Emailing</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Programming - Scratch</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Computer Systems and Networks 3 – Journey Inside the Computer</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Creating Media – Video Trailers</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Data Handling – Comparison Cards Databases</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>
Year 4	<p>Computing Systems and Networks – Collaborative Learning</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Programming 1 – Further Coding with Scratch</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Creating Media – Website Design</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Skills Showcase – HTML</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Programming – Computational Thinking</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Data Handling – Investigating Weather</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>

Computing Long Term Plan

Year 5	<p>Computing Systems and Networks; Search Engines</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Programming 1 Music</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Data Handling Mars Rover 1</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Creating Media Stop Motion Animation</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Programming 2 Micro:Bit</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Skills Showcase Mars Rover</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>
Year 6	<p>Computing Systems and Networks Bletchley Park</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Programming Python</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Data Handling 1 – Big Data 1</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Creating Media – History of Computers</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Data Handling 2 – Big Data 2</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>	<p>Skills Showcase: Inventing a product</p> <p>Online Safety session to be taught at the beginning of the topic and interwoven through all sessions.</p>

Computing Long Term Plan

Key stage 1

Pupils should be taught to:

- understand what algorithms are; how they are implemented as programs on digital devices; and that programs execute by following precise and unambiguous instructions
- create and debug simple programs
- use logical reasoning to predict the behaviour of simple programs
- use technology purposefully to create, organise, store, manipulate and retrieve digital content
- recognise common uses of information technology beyond school
- use technology safely and respectfully, keeping personal information private; identify where to go for help and support when they have concerns about content or contact on the internet or other online technologies.

Key stage 2

Pupils should be taught to:

- design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts
- use sequence, selection, and repetition in programs; work with variables and various forms of input and output
- use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs
- understand computer networks including the internet; how they can provide multiple services, such as the world wide web; and the opportunities they offer for communication and collaboration
- use search technologies effectively, appreciate how results are selected and ranked, and be discerning in evaluating digital content
- select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information

Computing Long Term Plan

- use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.
